- Slider of new products on the homepage
- Slider of brands in the bottom of the homepage
- 1 or 2 columns theme based on the type of page
- All column menu blocks are customized
- Configurable dropdown horizontal menu
- Configurable multi-language Slider on the homepage
- List of products displayed in grid mode
- Newsletter and social networks in footer
- 9 supported languages (en, fr, es, de, it, nl, pl, pt, ru)
- Optimized for all modern browsers.

TYPE OF STORE :

Biosany Responsive 1.6 was designed for health and well-being activities and any other industry of the Bio world. This theme also provides an ideal navigation for your customers in any type of business.

AUTOMATIC INSTALLATION :

Biosany Responsive 1.6 can be easily installed using the module **"import/export a theme"** available in your Prestashop back office.

SOMMAIRE :

- 1 - Install the theme**
- 2 - Activate the theme**
- 3 - Adaptation of image formats**
- 4 - Regenerate thumbnails**
- 5 – Manual install**
- 6 - Module positions**
- 7 - Graphic customization of the theme**
- 8 - Texts of the theme**
- 9 - Display your contact information in the footer**
- 10 - Indicate your social networks links**
- 11 - Shop name in the footer**

+ INSTALLATION OF THE MODULES OF THE THEME

1 - Install the theme :

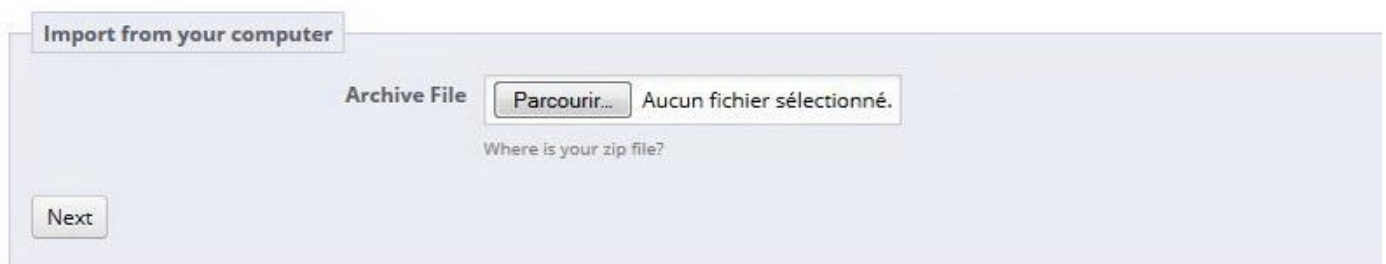

ENABLE THE THEME INSTALLATOR :

In the menu of your back office, click on the tab "**Modules**" and then the sub-category "**modules.**" Locate the module "**import/export a theme**" in the module list or type its name in the search. **Install** the module if it is not. Then click on "**configure**"

IMPORT FROM YOUR COMPUTER

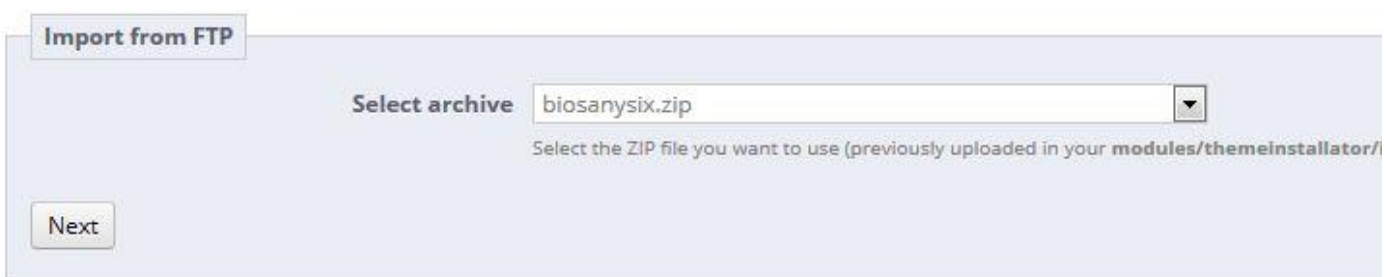

Select the field "**import from your computer**"

Import the "**biosanysix**" ZIP file you received from the location where you saved it on your computer. Then click on "**next**" for the theme installation process begins.

IMPORT FROM FTP :

Select the field « **import from FTP** »

An alternative technique is to import the ZIP file "**biosanysix**" file in the folder **modules/themeinstallator/import/** and activate the installation by clicking the next button as shown above

2 - Activate the theme :

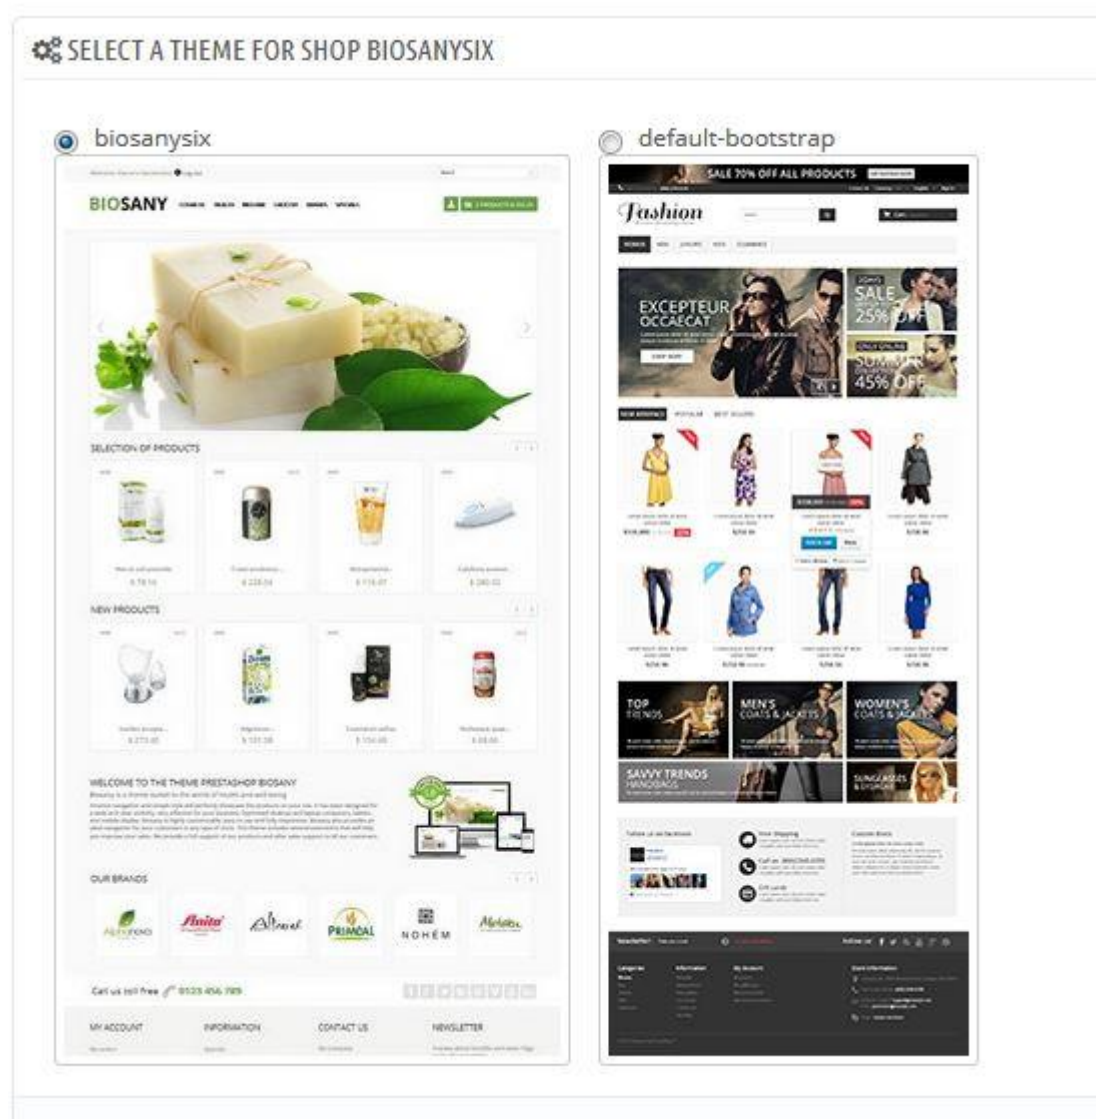

Tab "**Preferences**" then "**themes**" , **edit** the theme "**biosanysix**" with :

- **left column** and **responsive** enable.

- **Right column** must be disable

ID ▼▲	Name ▼▲	Directory ▼▲	Responsive ▼▲	Default left column ▼▲	Default right column ▼▲	
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
1	default-bootstrap	default-bootstrap	✓	✓	✗	Edit
5	biosansix	biosansix	✓	✓	✗	Edit

Select the theme « **biosansix** » :

3 - Adaptation of image formats :

Click on "**preferences**" then "**images**" tab to create the image formats of the theme

Create all types of images not bearing the extension "**_default**" as shown below if the automatic process has not worked :

	10	thickbox	600 px	600 px	✓	✗	✗	✗	✗	✓	Edit
	11	category	210 px	210 px	✗	✓	✗	✗	✗	✓	Edit
	12	home	500 px	500 px	✓	✓	✓	✓	✗	✓	Edit
	13	large	800 px	800 px	✓	✓	✓	✓	✗	✓	Edit
	14	medium	210 px	210 px	✓	✓	✓	✓	✗	✓	Edit
	15	small	100 px	100 px	✓	✓	✓	✓	✗	✓	Edit
	16	list	234 px	234 px	✓	✓	✓	✓	✗	✓	Edit

Once the new image formats created with the dimensions shown above, you can **regenerate your thumbnails**

4 - Regenerate thumbnails :

REGENERATE THUMBNAILS

Regenerates thumbnails for all existing images
Please be patient. This can take several minutes.
Be careful! Manually uploaded thumbnails will be erased and replaced by automatically generated thumbnails.

Select an image

Erase previous images

Select "No" only if your server timed out and you need to resume the regeneration.

The theme installer must configure the necessary settings on the theme "biosanysix" during the automatic installation. However, if some display bugs persist, check the following from your back office :

- The module **" Theme configurator "** must be uninstalled
- The following additional modules must be installed and activated **"Currency block dropdown"** , **"language and currency block"** , **" Brands slider on homepage "** , **" Slider of new products on the homepage "** and **" Minic slider on index page "**
- Your **"logo must be 209 x 52px"**
- The **"right column"** must not contain any elements
- The following blocks must be uninstalled: **"Currency block"** , **"Languages block"**

The theme is now installed, set the **horizontal menu**, the **slider on the homepage** and **all the used modules** as needed, as shown in the joined documentation about modules installation.

In case of bug or error messages during automatic installation of the theme, you can install it manually on your web server via FTP.

5 - MANUAL INSTALL :

You can also send all the files in the ZIP file to your server via FTP.

1 / Add the folder **/biosanysix/** contained in the ZIP file in the folder **/themes/** on your webserver next to the native theme **/prestashop/** and possibly all of your other theme files already installed.

2/ Add the 5 additional modules of ZIP files biosanysix ("**Currency block dropdown**" , "**language and currency block**" , "**Brands slider on homepage**" , "**Slider of new products on the homepage**" and "**Minic slider on index page**") in **/modules/** root of your server **/www/**

3 / Activate the theme in your administration : Tab "**preferences**" then "**themes**" , select the theme "**biosanysix**"

4 / Installing modules : Now go to the tab "**modules**" and install or/and activate the following modules ...

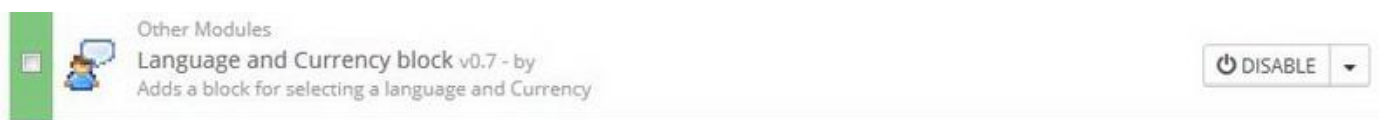

Features front office :

Minic slider on index page : you must configure it by putting your own images and links, and position it as shown in the section of module positions
